

SCIENCE AND TECHNOLOGY SOCIETY | MNIT JAIPUR

DSO STOPHIA SPHINX'26

RAJASTHAN'S LARGEST TECHNO MANAGEMENT FEST
30 OCTOBER - 1 NOVEMBER

ABOUT MNIT JAIPUR

The Institute lies in the heart of the pink city, imaginatively laid out with a picturesque landscape of 317 acres. It presents a spectacle of harmony in modern architecture and natural beauty. The campus is located in close proximity of Jaipur airport, railway station, major hospitals, and shopping malls. It consists of academic and administrative buildings, hostels, and on-campus accommodation for faculty and staff. The campus provides all essential amenities for community living like staff club, primary health center (dispensary), bank, post office, shopping complex, gymnasium, playing fields, guest houses, and canteen.

The Institute was jointly established in 1963 as Malaviya Regional Engineering College Jaipur by the Government of India and the Government of Rajasthan. Subsequently, on 26 June, 2002, the college was given the status of National Institute of Technology. On 15 August 2007, it was recognized as the Institute of National Importance through an Act of Parliament. The Institute is fully funded by the Ministry of Education (Shiksha Mantralaya), Government of India.

ABOUT SPHINX

The genius minds of Malaviya National Institute of Technology founded an annual intellectual extravaganza, Sphinx, opening new realms of possibility every year since. Celebrated by thousands of zealous aspirers from IITs and NITs across the country, Sphinx is Rajasthan's largest techno-management fest, a stage where technical mastery meets artistic creativity, and professional exposure grows out of real collaboration with industry experts and peers.

This year, that stage becomes a world of its own. Sphinx gathers nationwide intellectual minds with budding curiosities into Exodus, a fractured future civilization split into districts, each holding one fragment of what humanity used to know. With flagship events like RoboWars and the 24-Hour Hackathon by day, and artists who've electrified the stage by night, Sphinx blends intellect and passion the way it always has, but this year, you don't just attend it. You become a citizen of it.

DYSTOPIA

DID WE REACH THE PINNACLE...
ONLY TO BEGIN THE DYSTOPIA?

24 HOURS HACKATHON

THE GRID

Behind every glitch broadcast is a system waiting to be rebuilt. Teams unite their skills in a race against the clock, tackling real-world problems and building working prototypes across domains.

ROBOWARS

THE FORGE

Steel doesn't negotiate. Teams build and battle their own machines in the district that runs on fire and friction, aiming to disable, dismantle, or destroy in a true test of engineering and nerve.

MINUTE TO PITCH IT

THE EXCHANGE

Sixty seconds. One idea. No second chances. Teams craft an innovative pitch and deliver it to potential investors during a campus-wide chase, because in Exodus, conviction is the only currency that travels.

FLAGSHIP EVENTS

E-SPORTS

VANGUARD ARENA

Every war has its champions. Citizens dive into competitive gaming across top titles, showcasing team strategy and solo skill, complete with prizes and a live tournament vibe, in the arena where legends are made.

DESIGN-X

THE ARCHIVE

Some fragments of humanity survive as art. A fast-paced digital art challenge where participants craft original pieces from on-the-spot mood boards, preserving creativity and rapid ideation in the last archive of what we used to be.

AEROQUEST

THE HANGAR

The sky remembers what the ground forgot. A thrilling aeromodeling contest where citizens design, build, and fly through task-based missions, testing precision and aerodynamics in the district built for those who never stopped looking up.

BEARS AND BULLS

The Exchange

Fortunes are made and lost on the trading floor of a fractured world. Teams navigate volatile markets and high-stakes decisions in a battle of instinct, strategy, and nerve, where only the sharpest survive The Exchange.

FLAGSHIP EVENTS

ROOM OF NOSTALGIA

Old toys. Board games. Music nobody's heard in years. One room in Exodus where nothing needs rebuilding, just remembering, with the people who remember it too.

SCILENT DISCO

Everyone's plugged into a different channel. Pick your frequency and dance to it, the city outside can stay loud without you.

TREASURE HUNT

The districts are hiding things. Clues, tasks, and puzzles scattered across campus, and teams racing to piece it together before someone else does.

FUN EVENTS

RECREATIONAL EVENTS

PAST ARTISTS

Ankita
Chhetri

Pranav
Sharma

Anubhav
Bassi

NOT EVERY CITIZEN IS REBUILDING THE REACTOR. SOME ARE JUST HERE TO WATCH THE WORLD PUT ON A SHOW.

AUTO EXPO

Engines roar. Tires screech. Superbikes rip past luxury cars while the crowd loses it. Stunts, burnouts, and machines pushed to their limit right in front of you.

LASER SHOW

Lights fire across a dark campus, synced to a beat that turns an open field into a concert. This is what a district looks like right after the power comes back on.

STAND-UP COMEDY SHOW

Somebody's got to laugh through the end of the world. Sharp writing, sharper timing, and a break from whatever you were stressing about five minutes ago.

TECH TALKS

Every district in Exodus holds one fragment of what civilization used to know, engineering, code, capital, science, and none of it is enough alone. Tech Talk is where that gap starts closing. Across all three days, founders, engineers, and industry leaders take the stage to hand over what they've built, the failures behind the wins, the calls that changed everything, the thinking that got them here before anyone else. Past speakers have included Ashish Arora, Chief Academic Officer at The Narayana Group, Sachin Gupta, CEO of HackerEarth, Sandeep Jain, CEO of GeeksforGeeks, and Tarun Bhalla, Founder and CEO of Avishkaar, disruptive minds who didn't wait for permission to change something. This year's lineup carries that forward. Come with questions. Leave with a reason to start.

PRONITES

When the sun goes down, Exodus doesn't quiet down, it comes alive differently. Three nights, three entirely different moods, and a campus that refuses to sleep. DJ Night opens the run, bass rattling through the crowd until the dance floor stops being optional. Band Night follows with something slower and more human, real instruments, real voices, the kind of set that sits with you long after it ends. Then comes Concert Night, the one every citizen has been waiting for, a headliner-driven blowout packed with raw energy and performances built for a crowd that's been building up to this moment for three days straight. Past editions have brought Mithoon, Jubin Nautiyal, Stebin Ben, and Mohammed Irfan to the Sphinx stage, artists who turned an open field into something unforgettable. This year, the lineup is ready to do it again.

SPONSORS

OUR SPONSORS

We're grateful for the support of our amazing sponsors who help make our events possible

WHY SPONSOR US ?

- Direct access to 400+ institutions
- Over 50 Lakh+ digital impressions
- High engagement from techfocused youth audience

WIDE SCALE DIGITAL EXPOSURE

- 50K+ aspiring engineers, coders and IT professionals
- Brand visibility among innovation-driven minds
- Ideal platform to launch new-age tech products and services

REACH A TECH-SAVVY AUDIENCE

- Story-driven zones designed for content people
- Sponsor visibility carried through social shares and reels
- More reach and recall without paying for it twice

BUILT TO BE SHARED

- Access to 100+ institutes and domain experts
- Build strategic B2B and B2C partnerships
- Interact via speaker sessions, panels, and events

NETWORKING OPPORTUNITIES

- Recognition as a key player in the tech ecosystem
- Branding across digital, print, and live event assets
- Co-branded promotions and influencer integrations

BRAND AWARENESS AND RECOGNITION

- Direct 1:1 interaction with your core audience
- Run engaging activations like contests and polls
- Position your brand as community-first and future-ready
