SPHINX'26
RAJASTHAN'S LARGEST TECHNO MANAGEMENT FEST
30 OCTOBER - 1 NOVEMBER

The Institute was jointly established in 1963 as Malaviya Regional Engineering College Jaipur by the Government of India and the Government of Rajasthan. Subsequently, on 26 June, 2002, the college was given the status of National Institute of Technology. On 15 August 2007, it was recognized as the Institute of National Importance through an Act of Parliament. The Institute is fully funded by the Ministry of Education (Shiksha Mantralaya), Government of India.

The Institute lies in the heart of the pink city, imaginatively laid out with a picturesque landscape of 317 acres. It presents a spectacle of harmony in modern architecture and natural beauty. The campus is located in close proximity of Jaipur airport, railway station, major hospitals, and shopping malls. It consists of academic and administrative buildings, hostels, and on-campus accommodation for faculty and staff. The campus provides all essential amenities for community living like staff club, primary health center (dispensary), bank, post office, shopping complex, gymnasium, playing fields, guest houses, and canteen.

MNIT JAIPUR

ABOUT SPHINX

The genius minds of Malaviya National Institute of Technology founded an annual intellectual extravaganza, Sphinx, opening new realms of possibility every year since. Celebrated by thousands of zealous aspirers from IITs and NITs across the country, Sphinx is Rajasthan's largest techno-management fest, a stage where technical mastery meets artistic creativity, and professional exposure grows out of real collaboration with industry experts and peers.

This year, that stage becomes a world of its own. Sphinx gathers nationwide intellectual minds with budding curiosities into Exodus, a fractured future civilization split into districts, each holding one fragment of what humanity used to know. With flagship events like RoboWars and the 24-Hour Hackathon by day, and artists who've electrified the stage by night, Sphinx blends intellect and passion the way it always has, but this year, you don't just attend it. You become a citizen of it.

FLAGSHIP EVENTS
FUN EVENTS

DESIGN-X

Design X is a creative design competition where participants turn their ideas into compelling visual experiences, showcasing their creativity, imagination, technical skills, and ability to think beyond the ordinary in an exciting competitive environment.

AEROQUEST
AeroQuest is an aviation challenge where participants design, build, and fly their own aircraft models, showcasing their engineering skills, creativity, precision, and understanding of aerodynamics in an exciting competitive environment.

ROBOWARS

RoboWars is an action-packed robotics competition where powerful custom-built robots battle head-to-head in an arena. Teams showcase their engineering skills, creativity, strategy, and control to outsmart and defeat their opponents.

24HOURS
HACKATHON
A 24-hour hackathon is an intense innovation event where participants collaborate, brainstorm ideas, and build creative solutions to real-world problems within 24 hours. It brings together coding, design, problem-solving, and teamwork to turn ideas into working prototypes.

ESPORTS

Esports is a competitive gaming experience where players and teams compete in popular video games, showcasing their strategy, skills, teamwork, and quick decision-making in an exciting tournament environment.

BEARS AND BULLS

Bears & Bulls is a fast-paced strategy challenge where participants make calculated decisions in a dynamic market-inspired environment, testing their analytical thinking, risk assessment, strategy, and decision-making skills under pressure.

MINUTE TO PITCH IT

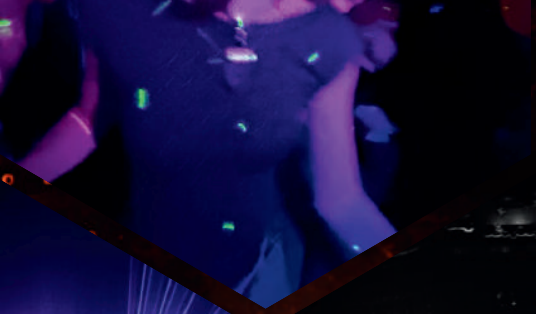

Minute to Pitch It is a fast-paced pitching challenge where participants get just one minute to present their ideas, showcasing their creativity, communication skills, confidence, and ability to make a powerful impact under pressure.

TREASURE HUNT

Treasure Hunt is an adventure-based challenge where participants solve clues, uncover hidden secrets, and navigate through a series of puzzles, testing their observation, teamwork, problem-solving, and quick thinking in an exciting race to the finish.

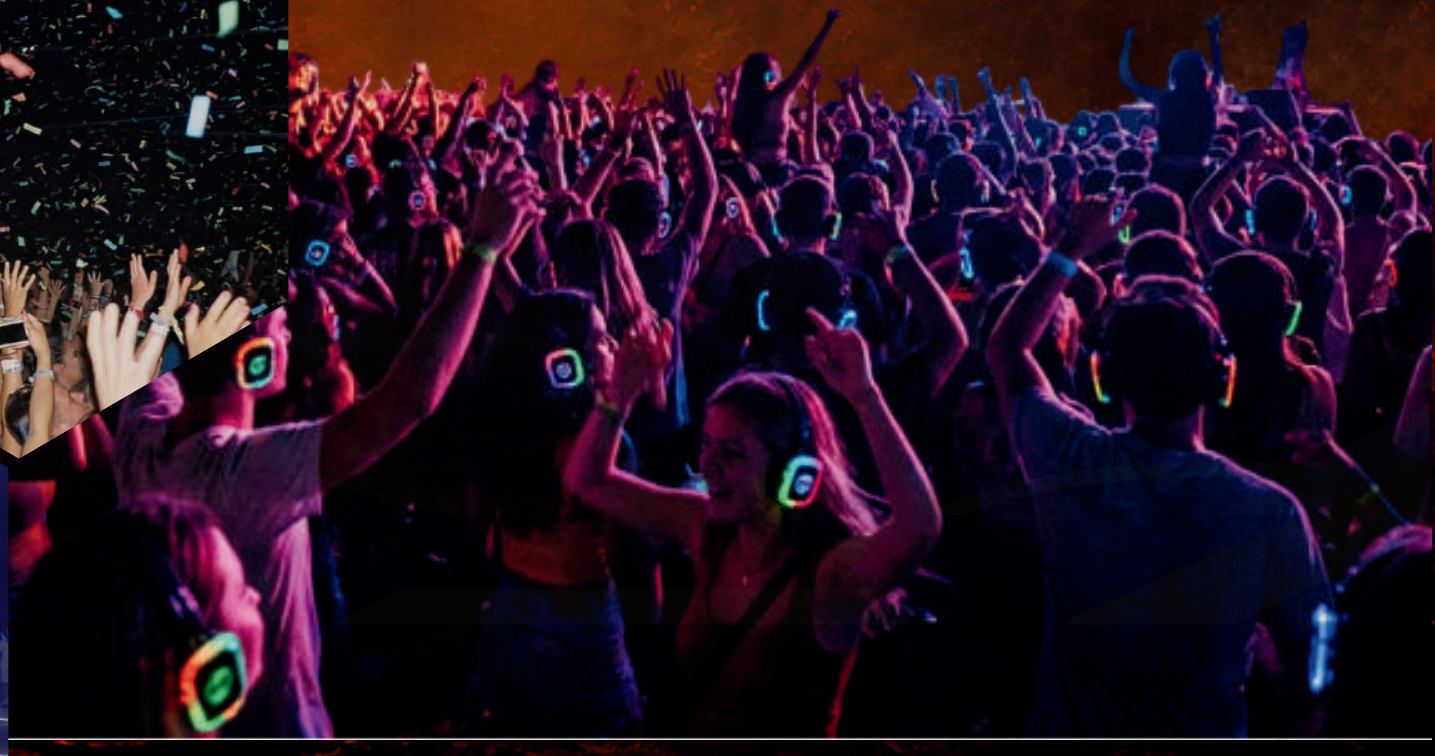

SILENT DISCO

Silent Disco is an immersive musical experience where participants dance and groove to their own rhythm through wireless headphones, creating a unique atmosphere filled with energy, music, and collective excitement.

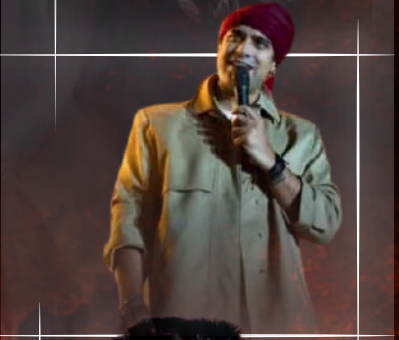

ROOM OF NOSTALGIA

Old toys. Board games. Music nobody's heard in years. One room in Exodus where nothing needs rebuilding, just remembering, with the people who remember it too.
